ONKAR MOHAN PAWAR

Frontend Developer | React.js & Next.js Specialist

Pune, Maharashtra, India | +91 7218227174 | onkarmpawar2002@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of professional experience designing and building responsive, scalable web applications using React.js, Next.js, JavaScript (ES6+), Tailwind CSS, and Bootstrap. Skilled in developing reusable component libraries, integrating REST APIs, implementing secure authentication and authorization, and optimizing performance through lazy loading and code splitting. Delivered 3+ production websites end-to-end, from UI architecture through SEO and deployment. Seeking a Frontend Developer role to build scalable, user-focused web applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks / Libraries: React.js, Next.js, Redux, Tailwind CSS, Bootstrap 5, SASS, Framer Motion, GSAP

Tools & Platforms: Git, GitHub, VS Code, Vite, Webpack, Postman, Vercel, npm

Core Concepts: REST API Integration, Authentication & Authorization, State Management, Component-Based Architecture, Responsive Web Design, Performance Optimization, Lazy Loading, Code Splitting, SEO, Cross-Browser Compatibility, Agile/Scrum

EXPERIENCE

React.js / Web Application Developer — *Sanvi Softech Solutions, Pune* **May 2025 – Present**

- Develop and maintain responsive, scalable web applications using React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, and Bootstrap across desktop, tablet, and mobile devices.
- Build reusable and modular UI components using component-based architecture, improving code maintainability and reducing development time on repeat features.
- Integrate RESTful APIs to enable efficient, reliable communication between frontend and backend systems and ensure seamless data flow.
- Implement authentication and authorization, session management, and protected routes to support secure user access and application workflows.
- Optimize application performance using lazy loading, code splitting, and image optimization, improving page-load speed and overall user experience.

PERSONAL PROJECTS

NaadBramha Dosoo — Restaurant Website

- Built a fully responsive restaurant website using React.js, Tailwind CSS, React Router, EmailJS, and Google Maps, featuring reusable components, an interactive menu, gallery, and contact form.
- Improved user experience and brand presence through responsive layouts, interactive UI elements, and on-page SEO practices.

Amity Engineers and Surveyors Pvt. Ltd. — Business Website

- Developed a modern, fully responsive business website using React.js, JavaScript, Tailwind CSS, and Framer Motion with professional layouts and animated UI sections.
- Optimized the interface for improved responsiveness, visual interaction, and overall user experience across devices.

Mahavir Rathi Billing Software — Billing Management Application

- Developed a responsive billing software application using React.js and Tailwind CSS, integrating RESTful APIs for real-time data handling and efficient frontend-backend communication.
- Built cross-browser compatible, user-friendly interfaces with reusable components, focusing on responsiveness and performance optimization across desktop, tablet, and mobile devices.
